

## **Your maths for the week is...**

To design your dream playground or your dream house, games room, or tree house. Make it as detailed as you can. You can choose any colours you like.

If you have some old magazines and newspapers you can cut out furniture, bikes, toys, anything!

If you wanted you could design your dream school playground and these will be shared with Matua Henare!

## **The challenge is...**

You have to include as many different shapes as possible. Think of how different shapes fit together.

Can you design a new shape?

Share your work with me by taking a picture and sending it via email to [hbunning@pukekohenorth.school.nz](mailto:hbunning@pukekohenorth.school.nz)

I look forward to seeing your masterpieces!
