What Is Minecraft?

Minecraft is a super popular video game. In this game, players build and create with a variety of different blocks in digital, three-dimensional worlds. The purpose of the game is to build and explore. There are no points or levels to work through.

There are two main modes, or ways to play, Minecraft. They are **Survival** and **Creative**.

In **Survival mode**, players need to find their own building supplies and food to be able to continue playing the game. They can also interact with mobs, which are block-shaped creatures that move. Some of these creatures are friendly, but some are definitely not!

In **Creative mode**, players are given the supplies they will need to build and break all kinds of blocks. Players do not need to eat to survive when playing in Creative.

To play Minecraft, you will need a computer or digital device. There are compatible versions of the Minecraft game for a variety of different computers, tablets and smartphones. You will also need to create an online account. Any players aged 12 or under will need to have a parent create their account for them.

Don't forget, you should always ask a parent before going online!
