

Hello Room 18, I will still continue with the online home learning for the next coming weeks. Stay positive for those that want to know what to expect or any upcoming notices you can go on our school website [Pukekohe North School: Welcome](#)

Maths

Piet Mondrian is famous for his abstract geometric paintings in the early 20th century. The painter developed a pared-down aesthetic schema (reduced to a simple form of art) that featured squares and rectangles of black, white and primary colours, all separated by strictly straight lines.

So, your task for the week is to find your inner Piet Mondrian and create your own *Tableau* (Title of his painting above) using the crayons I gave you in your Home Learning pack.
